

A-LC1B

Zone Detection Sensing Cable

Cable type	2 pin sensing cable
Cable Length	5, 10, 15 Meters
Cable diameter	5.0 mm
Sensing Wires	2x30 AWG with jacket of conductive fluoropolymer
Carries	Fluoropolymer construction strong and resistant to corrosion and abrasion.
Cable Color	High-visibility yellow
Drying time	Cable dries and resets within 15 seconds fo removal from standing water
Standard cleaning method	Wipe with clean damp cloth
Working with	ALLTEC Water Leak Detection Single Zone Alarm Unit or Non-locating type alarm unit
Flame Retardant	YES
MFG. By.	Shenzhen AnYing Technology Co.,Ltd
Certificated	RoHS

A-LLW1000

Addressable Detection Sensing Cable

Cable type	4 pin sensing cable
Cable length	5, 10, 15 Meters
Cable diameter	6.0 mm
Sensing wires	2x30 AWG with jacket of conductive fluoropolymer
Continuity wires	2x26 AWG with insulation of fluoropolymer
Carries	Fluoropolymer construction strong and resistant to corrosion and abrasion.
Cable color	High-visibility yellow
Drying time	Cable dries and resets within 15 seconds fo removal from standing water
Standard cleaning method	Wipe with clean damp cloth
Working with	ALLTEC Addressable Water Leak Detection Alarm Unit or Locating type alarm unit
Flame Retardant	YES
MFG. By.	Shenzhen AnYing Technology Co.,Ltd
Certificated	RoHS
